

ROBERT H LORD CO.

# BLEACHER & BASKETBALL BACKSTOP INSPECTION

The Robert H. Lord Co. provides total support for your bleachers, telescoping seating system, and basketball backstops including safety inspections, preventive maintenance and repair. Count on us to help ensure that your system will work like new for years to come.

## Safety Inspections

Protect your investment, your equipment and the people who use it with our detailed product inspections and surveys.

- Our highly trained professionals know your seating system
- We make sure your system complies with newest release of NFPA and ICC codes
- You receive detailed reports with our findings and recommendations

## Preventive Maintenance Programs

Our Preventive Maintenance Programs are designed to help you achieve uninterrupted performance and maximum life from your seating system and basketball backstops.

Our Preventive Maintenance Programs normally include:

- System Lubrication
- Wear Point Inspections
- Electrical System Review and Adjustments
- Mechanical Drive System Adjustments and Cleaning
- Safety System Testing

## Routine and Emergency Repair Service

Our comprehensive repair service uses only qualified professionals and factory replacement parts. From routine repair to emergency services, we'll get you up and running fast. If your seating system or backstop has a safety problem, give us a call. We'll dispatch a service person to correct the problem immediately. All repairs by our technicians are factory approved and warranted for both material and workmanship.

**Make sure your bleachers and basketball backstops are always in peak operating condition.**

**For expert maintenance and repair, contact the Robert H. Lord Co. or visit us on the web at [www.rhlco.com](http://www.rhlco.com).**
